

CARECALL ENTERTAINMENT HANDSET

The Miracle CareCall Entertainment Handset is a stylish unit designed to incorporate the functions a Patient Call button, a Light Controller, and the essential remote-control functions for a TV set.

The handset is light and comfortable to hold, with durable sealed buttons to help prevent damage to the unit through ingress of dust and moisture. Sound disturbance of nearby patients is kept to a minimum, as the handset has an onboard speaker so that listening volumes can be kept low. The handset connects to the nurse call system via a specific wall mounted unit which provides the interface between the TV, Handset, and the CareCall system.

Features:

- Call button. A momentary press initiates a Patient Call on the CareCall system. The call can be cancelled from the call point on the wall.
- Light control button. A momentary press turns the bed light on, pressing it again turns the light off.
- Handset TV controls include ON/OFF button, Volume control buttons UP/DOWN, Channel change buttons UP/DOWN.
- There is a headphone socket is on the side of the unit.
- A sturdy holder is available for hanging the handset on the wall.
- Durable and tough cable with pull-away plug to avoid breakages while manoeuvring beds.
- The wall unit is wired to an M-Type or CC4 Lite call point.
- Cabling is installed from the wall plate to a socket at the TV and a wiring loom with IR sender and speaker cable connects to the TV.
- Compatible with CareCall4 and legacy CareCall3 systems.
- For the bed light, a relay kit is installed to switch the mains power.
